MULTIDIMENSIONAL ARTIST

A quote that guides Akiala is, "Everything in life gets invented at least twice, first in the mind and second in the physical world."

Her motto is "[Consciously] Create Your Reality." - meaning if something doesn't exist that you believe should exist, strive to create it and bring the idea to life. She channels her life & experiences through her art and expresses herself through as many mediums as possible.

The term "multidimensional artist" is used to describe the way she creates, all of her creations are weaved together and share a similar narrative... self exploration & alchemy. Her passions are helping others bring their ideas to life, playing dress up & traveling. Her biggest inspirations are her friends & family, Star Trek: TNG, Salvador Dali, RuPaul and nature. RETURN

To be at the mercy of nature,
Is to adapt to being one with nature.

Carve a home into mountains,
Eat the right berry,
Talk to the animals,
Take care of your people.

Watch your step.

Be aware.

I am beholding God's creations,
And God is witnessing me.

Understand why the coyote bites my hand.

"Come back" it says,

Join us in this game, you are an animal first,
creature that is also at the mercy of nature."

The 2nd volume of "The Mind Which Exists: A collection of poems, thoughts & experiences" by Akiala I explores nomadic living, motherhood, art & community. The first volume was published in 2017 and since then Akiala has many new experiences to share. In this book you will get an intimate view of Akiala's life, her challenges, joy, romance, travels and art.

Ebb & Flow

Life is a rollercoaster. The "ups" and "downs" in life are inevitable. How will one truly experience joy if they haven't experienced sadness? To be able to experience emotion is what makes life dynamic and full of uniqueness.

In movies, we love to see character development and the trials and tribulations the antagonist goes through.

Every human desires their own 'Hero's Journey.'

We tend to romanticize 'the struggle' or stories of 'the underdog' and the alchemy that takes place within the

The intention of this journey is to provide you with a safe chrysalis to engage in the introspection that will catalyst you into the great transformation you desire. This journey is an exploration of alchemy, universal laws and the 1st law of thermodynamics, "Energy cannot be created or destroyed, only transformed."

This Journey includes:

- 12 Monthly calendar pages - To-do lists - Writing prompts - Exercises - Challenges - Inspirational quotes and passages
- Notebook & sketch book pages

"VIBE PALACE WERKOUT"

"CHOOSE YOUR VIRTUAL"

"WERKOUT 2.0"

ENTER THE WORLD OF VIBE PALACE...

On one very unfortunate, yet fateful day, the peaceful, technologically advanced, ecologically conscious, majestic world "Ultima" was faced with a disaster that would inevitably destroy the planet. The being known as "Aki" volunteered to preserve the sacred knowledge and used the "Vibe Palace" spaceship to escape Ultima right before total annihilation.

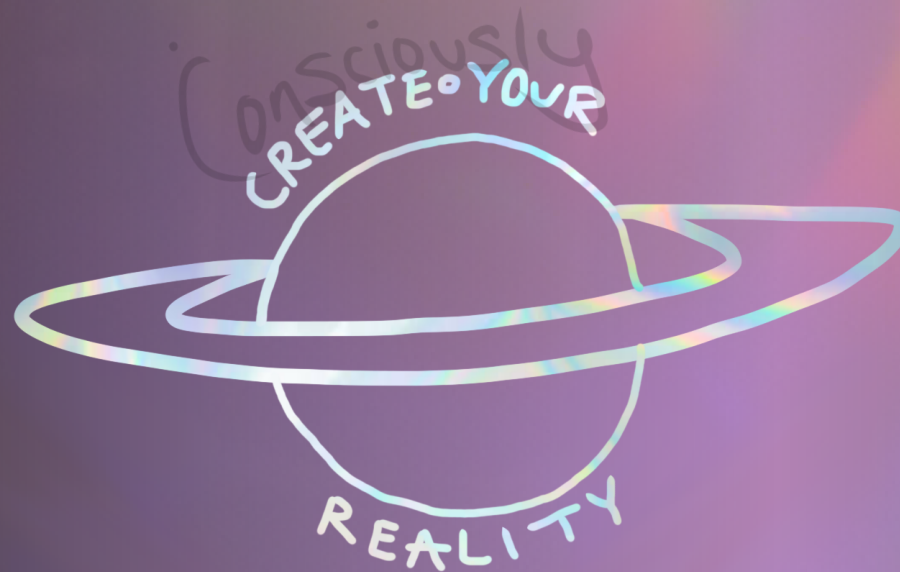

The being attempted to download the sacred knowledge to their memory banks but the knowledge was too vast. The only choice was for the being to virtually spread the knowledge. The being created "Virtual's" and spread them out across the Multiverse in hopes that the sacred knowledge would thrive, because it was the only key to saving existence.

In the process of giving the knowledge to other individuals, the being had to wipe their current memory by reincarnating. The being knew they risked not remembering the knowledge but decided that reincarnation would be the best choice. I, Aki, am the reincarnation of this being and my mission is to find the "Virtual's" to realize the spirit & sacred knowledge of Ultima on Earth.
